# The Thankful Tree

Directions:

The Trunk:

Tape four pieces of brown construction paper length-wise together to make a long trunk. Use scissors to cut the long sides of the paper to make the trunk slightly jagged and more tree-like.

Branches, Leaves, & Tree Hole:

Print out the branch templates on brown construction paper. Cut out and paste at the top of the trunk. Cut a "hole" out of black construction paper and paste in the center of your trunk.

Print out as many leaves as you need to fill your tree. Cut them out, or if your children are old enough, supervise as they cut out the leaves.

Use a marker to write what you are thankful for on your leaves.
